Hazem Khaled Azmy

Frontend Web Developer React & Angular

Email: hazemazmy8889@gmail.com / Phone: 01207396967 / 01227605402 / Location: Zagazig, Egypt / [Linkedin](#) /[Github](#)

Professional Summary

A passionate Frontend Developer with 1 year of experience in transforming ideas and designs into interactive and responsive web applications. I specialize in building dynamic user interfaces using React and Angular, and I am always driven to write clean, maintainable code to contribute to innovative products that deliver an exceptional user experience

Education

October 2022 - July 2026
B.Sc. in Computer Science - CS Department
Matrouh University.

Work Experience

Freelance Frontend Developer (Aziz Company) [Aug 2024 - Oct 2024]

- Integrated the frontend with a custom API powered by Google Apps Script, enabling users to both send data to, and dynamically retrieve data from, a Google Sheet, ensuring a seamless user experience through robust state management.

- Enhanced my teamwork and communication skills by working in a collaborative agile environment, contributing to a cohesive and efficient workflow.

Projects

Frontend Developer (Freelance) – Aziz Internal Ride Sharing System (2 Months)
- Design and develop a fully-functional internal ride-sharing web system, similar to Uber, using Google Apps Script.
- Implemented real-time data exchange with Google Sheets using custom APIs.
- Focused on responsive UI and smooth user experience.

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C++, Java, Python

Frameworks/Libraries: React, Angular, Bootstrap

Tools: Git, GitHub, npm, VS Code, Figma
